# Animal parts

Match animals with their parts.

The image contains two rows of four rounded rectangular boxes each, set against a light green background with small tufts of grass. The top row shows whole animals: a black bull, a black and white cow, a brown horse, and a white sheep. The bottom row shows parts of these animals: a cow's head, a horse's body, a sheep's body, and a bull's body. Each animal and part has a small circle with a dot above it. A dashed line connects the dot on the cow's head to the dot on the black and white cow.
