Let's find out why apples turns brown

Apples

Salt water

4 Cups

Lemon juice

Milk

Apple slices

Vinegar

Pour each liquid (salt water, lemon juice, milk & vinegar) in separate 4 cups.

Label each cup with the name of the liquid inside it.

Place an apple slice in each of the cups.

Wait a few minutes and take out the apple slices.

Place the apple slices on a plate for 5 hours.

Writedown your observations while doing this experiment.

Which slice turned brown faster?
