Collecting Stones : Story Stones

Let's create a story with stones. Take some stones and paint them with pictures you like and tell the story to your friends and family using these stones.

Write your own Stone Story :

Example of a stone story :

On a Sunny Sunday Morning came up the Sun Shining Bright (use the sun stone). It shined so bright that due to it's the water evaporated on Monday, turned into vapours on Tuesday and formed a cloud on Wednesday. This cloud went to meet the sun on Thursday but due to its heat the cloud melted and poured down on the earth as rains on Friday (Use the Sun & Cloud stone). These rains cooled the heat and helped the snow shower on Saturday (Use the snow stone). After it rained and snowed, popped up the sun on the sunny sunday morning with their friend rainbow and they all together made the weather beautiful. All the children laughed and played and thanked God (bring up the sun and rainbow stones first and show all of them together and smile).
