## Pictorial Problems – Multiplication

Multiply the following.

Three turtles are shown on the left, followed by a multiplication sign 'x', and two turtles are shown on the right. An equals sign and a blank line follow.

$$3 \times 2 = \underline{\hspace{2cm}}$$

Four balls are shown on the left, followed by a multiplication sign 'x', and two balls are shown on the right. An equals sign and a blank line follow.

$$4 \times 2 = \underline{\hspace{2cm}}$$

Six balls are shown on the left, followed by a multiplication sign 'x', and three balls are shown on the right. An equals sign and a blank line follow.

$$6 \times 3 = \underline{\hspace{2cm}}$$

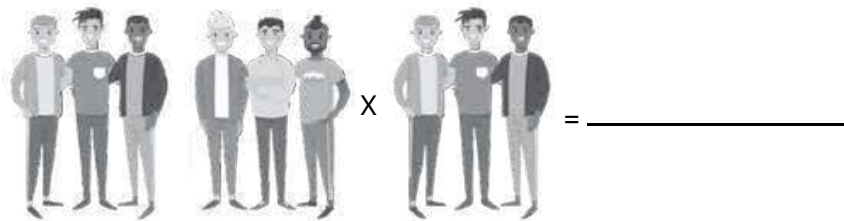

Three water bottles are shown on the left, followed by a multiplication sign 'x', then two water bottles, another multiplication sign 'x', and two more water bottles. An equals sign and a blank line follow.

$$3 \times 2 \times 2 = \underline{\hspace{2cm}}$$

Three clouds are shown on the left, followed by a multiplication sign 'x', and two clouds are shown on the right. An equals sign and a blank line follow.

$$3 \times 2 = \underline{\hspace{2cm}}$$

Three groups of three people are shown on the left, followed by a multiplication sign 'x', and one group of three people is shown on the right. An equals sign and a blank line follow.

$$3 \times 3 = \underline{\hspace{2cm}}$$
