## Paper Toys: Five Petal Pin Wheel

Have you ever seen a five petal pinwheel? Colour and decorate the template given below. Request your parents to cut out the template and make incisions on dotted lines. Don't cut all the way till the center, be careful. Now, one by one, fold the sides to match the corner blue dots with the center blue dot (look at the example of a four petal pinwheel). Stick the sides to the center and you are done!
