

Name:

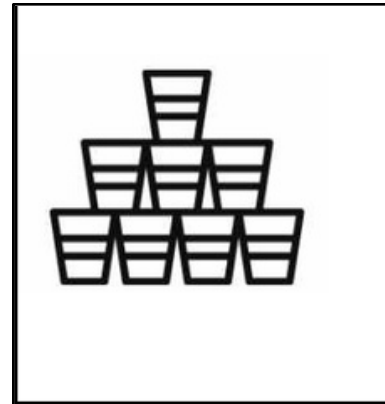

Date:

E: Mechanical - Engineering process

An engineering process is a set of steps like identify a need, imagine and develop possible solutions, plan, create, test and evaluate, improve. Let us try to stack paper or plastic cups in different ways. Follow the given process to build your stacking cups.

Ask

Stacking cups

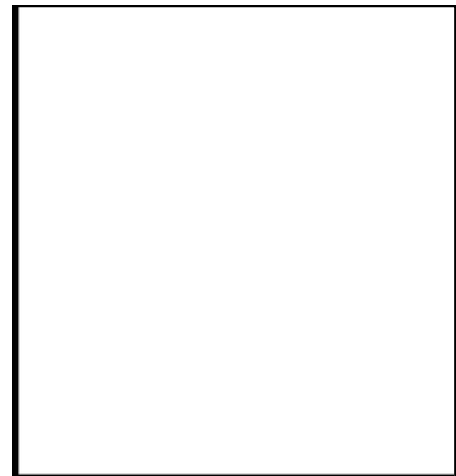

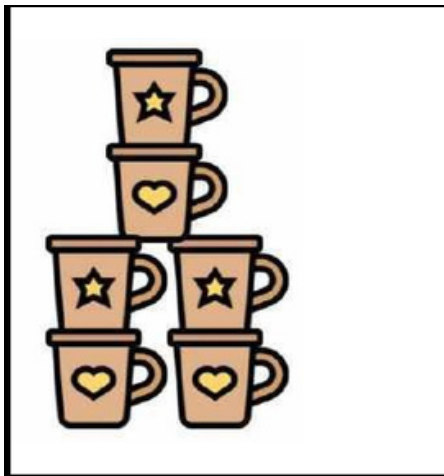

I imagine

Materials

1	<input type="text"/>
2	<input type="text"/>
3	<input type="text"/>

Plan

Draw your stacking pattern here:

Create

Did your stacking pattern work?

How many times did you try to get it right?

How long did it stand without falling?
