## Emoji Sudoku

Sudoku, here, is played on a grid of 4x4 spaces. Within the rows and columns are 4 "bold boxes" (made up of 2x2 spaces). Each row, column and bold box (4 spaces each) needs to be filled out with the 1-4 emojis as given below, without repeating any emojis within the row, column and bold box. You can draw or cut the pictures and paste them in the grid to complete the sudoku.
